

# Bridgeport Free Skool

*Free community classes in Bridgeport, Connecticut*

<https://bptfreeskool.org>

We're a small group of educators, artists, writers, and techies trying to bring the free skool philosophy to community classrooms in Bridgeport. We view education as a reciprocal activity, and therefore encourage an environment of mutual respect between teachers (facilitators) and students (participants). Classes are organized by an awesome crew of volunteers, excited to share their skills and enhance Bridgeport.
